

Silver 5 for Lightroom, Raw and Capture One

Congrats on getting Silver 5. I'm Gavin Seim and I created Silver. In your download you'll find a Silver presets pack and a Mod-Kit preset pack. Both should be installed. Unzip the main download first.

For Lightroom CC - Simply Import the preset ZIP files contained in the CC version folder.

For Capture One - You should just be able to double click the Styles pack and open in C1.

For Lightroom Legacy – Copy the preset folders the old fashioned way to Develop Presets.

If you don't know how to install presets and need more help please visit our help page for the videos...
