

Silver 3

Silver 3 presets are precisely organized within the Silver 3 folder and will work best installed as an entire folder. If you don't know how to install presets just check out the link below for a video on our website.

- **Watch the install videos** <http://seimeffects.com/guide>

The presets will work in LR4 and beyond, but some of the latest features and mask tools require the Latest version of Lightroom Classic, CC and LR Mobile.
